STUD WELDING GUN Model: BATTERY PACK 800

Made in USA 

DESCRIPTION

The Batt-Pack 800 incorporates the latest solid state technology into a compact and rugged stud welder. This system has the capability to weld studs and pins ranging from 1/4" through 5/8" PCP* threaded studs. The new and improved battery charging system allows for a greater duty cycle than previous battery-powered stud welders. The AG-805 is an ergonomically designed, semi-automatic medium-duty stud welding gun. Welds any length stud with a diameter range of 12 gauge through 5/8 inches. The weight of the gun assembly typically supported by the operator is approximately 7 pounds, plus the weight of the stud.

* Maximum capacity on full diameter base studs (i.e. "HCA" studs) is 5/8".

FEATURES	BATTERY PACK MODEL 800
WELD RANGE	1/4" - 5/8 (PCP)"
DUTY CYCLE	1/4" = 20/min 3/8" = 10/min 1/2" = 6/min 5/8" = 4/min
INPUT VOLTAGE	110v 50/60Hz/15 amps 23v 50/60Hz/18 amps
