

STUD WELDING PRODUCTS, INC

Your Number One Stud

Maximum Weld Rates
Maximum Efficiency
Minimum Energy
Minimum Weight

DESCRIPTION

The ideal entry-level machine for automatic stud welding with tip ignition. Saves you money, time and energy!

FEATURES

- Market-friendly development concept and innovative inverter technology mean an over 30% lower selling price (compared to previous model)
- Combined with the fully-automatic stud feeder VBZ-3, up to three times faster than manual operation
- CDi 1502 consumes 30% less electrical power through inverter-capacitor charging technology
- 100% higher welding rate through inverter-capacitor charging technology
- Fastest welding rate in its class
- 20% weight saving compared to previous model
- Optimal customer benefit through a customer-oriented development
- Switch on machine. Select stud diameter/charging voltage and blowing time. And off you go!
- Highest charging energy in its class: 1,600 Ws / 66,000 μ F / 220 V charging voltage
- 20% charging redundancy based on 220 V charging voltage

WELD RANGE	#4 - 5/16" Cupped Heads Insulation Pins
WELD RATE	12 to 40 Studs/Min
DIMENSIONS	18.5"L x 9.06"W x 8.66"H
WEIGHT	73.85 lbs
PRIMARY POWER	115 V 50/60Hz 10AT

UP TO 50% FASTER VS MANUAL
